

Import Ocean Freight Services

The strategic partnerships we have set up with our associates and major ocean carriers bring you advantages in freight rates, equipment availability, space reservation ensuring your clients trust in your business.

We can manage various kinds of cargo dry cargo (FCL, LCL), temperature-controlled cargo, project cargo, Open Top, Flat rack, RoRo and Break Bulk. We take care of your cargo not only on sea-way but also on door delivery service, de-consolidation and other related services.

Export Ocean Freight Services

Ocean container shipping is affordable and effective when planned ahead of time to meet your market needs. We offer excellent rates and services to all the major world ports. We offer LCL, FCL and specialized equipment for global sea solutions. We negotiate excellent rates advantageous to our customers.

Whether you are exporting to China, Europe, USA or rest of the world we can help. Our sea freight department liaises with major shipping companies, NVOCCS to offer a cost effective & time definite solution to its valued customers. Through our network of agents globally we can arrange for pick up from any location and delivery to most part or inland destination in the world. We can arrange shipments from port to port or from door to door. We give substantial follow ups of our all sea shipments from origins till delivery at destination ports so that customers are kept well informed at each & every stage of shipments.
